NEW ONLINE AND MOBILE BANKING

What is new in the online banking system?

We think you will enjoy the convenience of:

- ▶ Single sign-on for online and mobile banking
- ▶ Consistency across all devices
- ▶ Logging in with two-factor authentication
- ▶ Adding notes, tags, and pictures to your transactions

Why did online banking change?

You spoke and we listened. We are now simplifying our online and mobile banking into one platform. Our new online banking experience provides convenience with enhanced security, new features and functionality.

Will I need to download a new mobile app?

No, the app will remain the same. If you have not yet downloaded the app, you can do so by visiting the links below:

Do I need to re-enroll in online banking on the new system?

There is no need to re-enroll if you have previously enrolled in online banking. Log in with your existing online banking credentials on either the online banking website or the mobile banking app. If you are having trouble logging in, you can reset your password to recover access to your account.

If you have not previously used online banking, then you will have to go through the enrollment process.

Is text banking still offered?

Text banking is no longer available and has been replaced with online and mobile banking for a more secure online and mobile experience.

LOGGING IN

How do I access online banking?

You can access online banking and your account on a desktop, laptop, mobile phone, or other internet-accessible device. Simply log in with your existing online banking credentials. There are two access points:

- 1) Visit our [website](#) and click Sign In to get started
- 2) For added convenience, download the mobile banking app from the [Apple Store](#) or [Google Play](#).

Note: You will not be able to access the website via old bookmarks.

What is 2-Factor Authentication and why is it used by the online banking system?

Two-Factor Authentication is a security measure that allows you to request a one-time access code to log in to online banking. The code enhances the security by creating an added layer on top of your unique username and password. This security process helps to verify you and better protect your credentials and the accounts you can access.

When I log into online banking, do I need to get a confirmation code every time I log in?

No. Check the “Don’t ask for codes again on this computer” box if you do not want to receive a confirmation code or phone call each time you log in. If you prefer to input a confirmation code with each use, you can leave the box unchecked or use the 2-Factor Authentication app to deliver the code.

Note: If you ever want to remove a device and reset your security settings, you can change them in settings once logged in to online banking.

How can I log in to online banking if I can't get a verification code through text message?

Two-Factor authentication uses a unique one-time access code to verify identity and log on to online banking. If you are unable to receive text (SMS) messages, you can choose to receive your access code via a phone call.

- ▶ On the verification code screen click Try another way located beneath the Verify button
- ▶ Select Phone Call and click Next
- ▶ You will receive an automated phone call that will provide your access code (Have a pen and paper ready)
- ▶ Return to the verification code screen
- ▶ Enter your access code and click Verify

If you are still having trouble, contact the credit union to ensure we have the correct phone number on file.

Can I use an email for two-factor authentication?

An email and a phone number are required for the two-step authentication. The one-time access code will be sent via text or phone call. The phone number must match our records for the additional security layer to work correctly.

Why am I receiving the following message: "Your account needs attention"?

This error is present during the log in process and typically means that your account has been locked. This can happen for a variety of reasons but is easily resolved. Please contact us via phone or chat for assistance unlocking your account.

Why am I receiving the following message: "Please verify your information and try again"?

This error is present during the log in process and typically means that your credentials didn't match our records. Try entering your credentials one more time. If the error persists, please contact us via phone or chat for further assistance.

Why am I receiving the following message: "Oops: The information you provided doesn't match what we have on file."?

This error is present during the log in process and typically means that your account information does not match our records. Please contact us via phone or chat to confirm we have the correct phone number and username on record.

Why am I receiving the following message: "Incorrect phone number"?

This error is present during the enrollment process and means that the phone number you entered does not match the phone number we have on file. If you have an alternative phone number, you can try again. If you would like to update your phone number in our system or need other assistance, please contact us.

Why am I receiving the following message: "Does not meet username or password requirements"?

This error is present during the enrollment process or when updating credentials. Click on "Show Rules" below the username and password field to see the credential requirements.

Why am I receiving the following message: "It looks like you've already enrolled"?

This error is present during the log in process and typically means that our records show that you have previously created an account with us. If you forgot your username and password, on the log in page click "Forgot?". Follow the steps to recover your account.

I'm not able to log in to online banking when I click on the Sign In button

You may need to clear your browser's cache to remove all cookies. If you need further assistance, [click here](#) for helpful information on how to clear your browser's cache.

I can't remember my username or password

You can recover your account by going through the "Forgot Password?" steps.

What types of checks can be deposited through mobile deposit?

Personal and business checks drawn on U.S. financial institutions and payable in U.S. dollars can be deposited. Checks must be payable to the account holder and properly endorsed.

How should I endorse checks deposited through my mobile device?

Please be sure to sign the check, write your Pima Federal account number, and the words “For Mobile Deposit Only” in the endorsement area on the back of the check.

Are there any limits to checks that may be deposited using mobile deposit?

Yes, you may deposit checks totaling up to \$1,500 daily and \$5,000 monthly. There is currently no limit to the number of checks deposited remotely. To request an account review for higher deposit limits, please contact us by phone at 520-887-5010 or visit any branch.

When will my deposit be available?

The first \$200 of your deposit will be available immediately; the remaining amount will be available on the third business day after making your deposit.

What should be done with the check after a successful mobile deposit?

Please save the check in a secure location for 30 days after depositing it remotely in the event that the paper item is needed for verification or adjustment. Also, watch for it to appear on your monthly statement. After that point, you may destroy the check.

How will I know my mobile deposit was submitted for processing?

Upon successful completion of a mobile deposit transaction, you'll receive a confirmation screen on your device within the Deposits tab of Pima Federal's mobile app. You'll then receive an email confirmation saying that the item has been approved for processing. Should a discrepancy or adjustment be detected, you'll receive another email alerting you that the deposit has been adjusted or rejected.

If I discover I've entered an incorrect amount for a mobile deposited item, should I take another photo of the item?

No, we will process any needed check amount adjustments. Once you have submitted your deposit on your mobile device, you will not be able to take another photo of the same check as it will be detected as a duplicate.

What if I want to use a flatbed scanner to remotely deposit checks?

If you wish to use this option, please contact us at 520-887-5010 or visit any Branch to enable this feature within your home banking.

Is there a dollar amount limit on transfers?

The daily limit for external transfers is \$2,500

Why am I required to complete a setup verification process?

The setup verification process is a security measure to ensure you have access to the non-Pima Federal account.

What does the setup verification consist of?

When you initiate a new transfer to another financial institution, we will send 2 micro-deposits to that account within 3 – 5 business days. Each micro-deposit will not exceed \$0.99. Once you receive those micro-deposits in the non-Pima Federal account you will need to enter those dollar amounts in the Pima Federal Mobile Banking App to confirm the amounts match.

When will my transfer be available?

Transfers requested before 1:00 pm MST will be available 3 business days after the request. Please keep in mind, weekends and federal holidays may affect this schedule since the Automated Clearing House (ACH) network is closed on these days.

SUNDAY	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY

For the first time logging in to QuickBooks after the online banking update, you will need to reconnect all accounts in order to reactivate your feed. [Click here](#) for instructions provided by QuickBooks on how to connect your accounts.

MISC. ONLINE

Which Internet browsers can I use to access my accounts online?

Recommended browsers (current major release):

- ▶ Microsoft Edge
- ▶ Firefox
- ▶ Safari
- ▶ Chrome

Note: Microsoft no longer supports Internet Explorer versions older than 11.0, and security updates are not available. Please download one of the browsers listed above.

Safari versions below 10.1.2 are not compatible with the initial log in process. To complete the initial log in process, upgrade to the latest version of Safari, or use Chrome or Firefox.

The following types of browsers and tools are not recommended for use with online banking:

- ▶ Beta versions
- ▶ Embedded browsers within Personal or Commercial Financial Management Software

What is the inactivity time-out period for online banking?

For your security your account will time-out after 10 minutes of inactivity.

How do I log out of online banking?

When accessing on a browser, click on your name at the bottom left-hand corner of the screen and select “Sign Out”. You will be taken to our website homepage and your session will be closed.

How do I log out of the mobile app?

When you are using the mobile app, there is not a log out button to push. You can exit the app by going to a different app or your home screen. Each time you navigate away from the app, your active session is ended, which serves the function of a log out button. When you navigate back to the app, you will be asked to re-authenticate, and if you have quick access features such as FaceID, TouchID, or passcode log on, you can gain access quickly each time.

If you want to remove the connection between your device and your account altogether, you can go to the Menu > Settings > Remove Profile. This will remove all association between your account and the mobile device and app you are using. Each time you attempt to access the app after this, you will have to put in the full username, password, and 2-Factor authentication to authorize your account on that device.

What minimum software versions are required for the mobile app?

The Apple mobile app requires a minimum version of iOS 11. The Android mobile app requires a minimum version of Android 5.0.

How do I switch from one of my accounts to another?

You can easily toggle between separate accounts that you are a signer on by using the Mobile Banking App.

Mobile:

- ▶ Log in
- ▶ Select the “hamburger menu” (three stacked horizontal lines above your name)
- ▶ Tap Switch
- ▶ Select the account you would like to switch to
